Enhanced

Event Recurrences – Staggered open registration dates. (CMS-2304)

It is now possible to set the registration open date relative to the occurrence start date when creating recurring occurrences.

Use the new 'Registration Open Date Interval' value to set days prior to each new recurring occurrence that is created for which you would like registration to open. **Note:** This is now a required field.

Recurrence

This tool generates additional recurrences of the current event occurrence. Once created, these occurrences cannot be updated in bulk so it's important to ensure all occurrence settings are correct before proceeding.

Event Waitlist – Unable to see the expired event wait listed registrants. (CMS-4464)

Added the ability to see the status of waitlist registrants of an expired event. Registrants who were on the waitlist as of the start date\time of a given occurrence will show under the status "Waitlisted." Also, registrants who received a notification to join the event from the waitlist, but took no action will show with a status of "Expired."
